

December 23, 2020

Dear Family Member,

I wanted to update you on our COVID-19 situation. Facility wide testing of all residents was completed on Monday and our weekly staff testing is underway. As of today, we have no new positive residents. It's unfortunate that we did have a couple new positive employees, both of which had little to no contact with residents. We will continue to test both residents and staff at least weekly to quickly identify positive cases and isolate to prevent potential spread.

Yesterday we welcomed back three staff members who have recovered from COVID-19 and today we welcomed back our hospitalized residents to the ECF. They have recovered and are once again COVID-19 negative. We received confirmation today from Walgreen's that they will be vaccinating ECF residents and employees on January 7, 2020. This was the earliest date made available to us. If we are able to get this made available earlier, I will let you know.

Although this time does not feel like the Holiday season, we do have to stop and reflect a bit. We have a lot to be thankful for. Although, we are not in the clear yet, I am confident that we have made significant progress in fighting this virus.

I thank you again for all your prayers and support. On behalf of all the staff at the ECF, I want to wish you and your family, a very Merry Christmas!

Sincerely,

*Fortunato Scerbo III*
