

January 2, 2022

Dear Family Member,

I am taking this Sunday morning to update you on the unfortunate news of more COVID positive cases in the ECF. Last evening, we discovered two residents to be positive and this morning another staff member. As of this morning, all three of our nursing units are on isolation precautions to minimize potential spread. Our staff are taking all the necessary infection control precautions including N95 mask use, face shields/goggles and gowns and exercising proper hand hygiene.

Although our residents have the right to continue having in-person visits, I encourage you to refrain from visiting the facility at this time. iPad visits remain available to our residents to stay in contact at this time.

I will continue to update you as we test all residents and staff regularly over the next couple days.

Sincerely,

Fortunato Scerbo III

Administrator
