

Important Information about Paying for Your Care at Oneida Orthopedic Specialist

Oneida Orthopedic Specialist is a participating provider in many health plan networks. You can find a list of the plans in which we participate at www.oneidahealthcare.org. Some health plans use smaller networks for certain products they offer so it is important to check whether we participate in the specific plan you are covered by. Our list will tell you if we do not participate in all of a health plan's products.

It is also important for you to know that the physician services you receive in the office may not be the only service that you might receive a bill for, and may be billed by other providers. Other services at the Oneida Orthopedic Specialist, such as your x-rays, reading of the x-ray, durable medical supplies (DME) may be by the actual provider of those services. Physicians and other Service Providers bill for their services separately and may or may not participate in the same health plans as the hospital. You should check with the physician arranging your hospital services to determine which plans that physician participates in. Plan participation information for physicians employed by the hospital can be found at www.oneidahealthcare.org. Oneida Orthopedic Specialists contracts with a number of physician groups, such as anesthesiologists, radiologists and pathologists, to provide services at the hospital. Contact information for the physician groups the hospital has contracted with is available at www.oneidahealthcare.org. You should contact these groups directly to find out which health plans they participate in.

You should also check with the physician arranging for your hospital services to determine whether the services of any other physicians will be required for your care. Your physician can provide you with the name, practice name, mailing address and telephone number of any physicians whose services may be needed. Your physician will also be able to tell you whether the services of any physicians employed or contracted by Oneida Healthcare are likely to be needed, such as anesthesiologists, radiologists, pathologists and telemedicine. Contact information for these physicians is available in the attachment and at www.oneidahealthcare.org. You should contact these groups directly to find out which health plans they participate in.

Providers are required by law to make available information about their standard charges for the items and services they provide. This information is available at www.oneidahealthcare.org or by contacting our Patient Accounting Specialist at 315-361-2915.

If you do not have health insurance, you may be eligible for assistance in paying your provider bills. Information about financial assistance with hospital services is available at www.oneidahealthcare.org. Contact your physician office for assistance with your provider bills at: 315-361-2915.
